Trainee Comments

Clinical Expertise

Competencies	Description	Trainee self-assessment of strengths and challenges and how any challenge could be addressed
Demonstrates responsibility, reliability and initiative in undertaking clinical and other duties and follow up	Demonstrates an ability to:	Follow up of acute test results can be difficult due to current hospital systems. However, I have taken time and responsibility for this. Managing to complete allocated duties and prioritise urgent tasks as needed.
Manages clinical load effectively in consultation with other members of the health care team	Demonstrates an ability to:	I will try to improve my time management when balancing clinics with ED referrals. I ask for assistance when appropriate.
Demonstrates appropriate obstetric clinical procedural and surgical skills	Demonstrates an ability to: proficiently manage and technically perform routine obstetric procedures identify and proficiently manage obstetric complications seek assistance from appropriate specialist colleagues	Currently managing work load well having managed several obstetric complications and requested back up in a timely manner.
Demonstrates appropriate obstetric non-procedural skills	Demonstrates an ability to: • organise routine obstetric examinations, investigations and appropriate tests	Organising tests as required, but some test follow-up has been difficult (see above).

Demonstrates appropriate gynaecological clinical procedural and surgical skills	Demonstrates an ability to: proficiently manage and technically perform routine gynaecological procedures identify and proficiently manage gynaecological problems and complex medical conditions seek assistance from appropriate specialist colleagues	I have had very limited exposure to gynae surgery in this rotation, particularly major lists. I need more operating and colposcopy time. I have asked my Training Supervisor to speak to the HOD to advocate on my behalf.	*
Demonstrates appropriate gynaecological non-procedural skills	Demonstrates an ability to: organise routine gynaecological examinations, investigations and appropriate tests	Functioning independently and confident with this.	*
Demonstrates appropriate documentation and organisational skills	Demonstrates an ability to: take a relevant history write legible and clear records organise and prioritise urgent tasks give an effective clinical handover	My handover skills have improved, Documentation/organisation is excellent.	*
Demonstrates continued improvement in medical expertise, clinical reasoning and judgment	Demonstrates an ability to: access, interpret, and apply knowledge to make accurate diagnoses apply effective clinical reasoning provide effective and ethical diagnostic, therapeutic and surgical management consider cost-effectiveness in clinical decision-making use agreed clinical protocols and procedures	Exposure to a wide range of complex cases at this hospital has improved my management of patients. Could improve my knowledge of in-hospital protocols as I tend to rely on protocols from my previous hospital.	*

Academic Abilities

Competencies	Description	Trainee self-assessment of strengths and challenges and how any challenge could be addressed	
Demonstrates appropriate theoretical knowledge of specialty and principles of evidence-based medicine	Demonstrates an ability to:	Am proactive in keeping up to date with evidence based medicine as studying for oral exam.	*
Demonstrates teaching at both undergraduate and postgraduate level	Demonstrates an ability to:	Really enjoying supervising junior staff. Sometimes struggle to communicate negative feedback to students, need to work on this.	*
Demonstrates attendance and participation at continuing education meetings	Demonstrates an ability to: consistently attend and participate in hospital timetabled education meetings participate effectively in organised educational activities	Satisfactory – I attend when my roster allows.	*

Professional Qualities

Competencies	Description	Trainee self-assessment of strengths and challenges and how any challenge could be addressed	
Communicates effectively with patients and their families	Demonstrates an ability to: Ilsten attentively and answer questions fully form therapeutic relationships with patients, relatives and colleagues provide courteous and helpful guidance to patients show empathy and sensitivity to cultural and linguistic diversity respect patients in their care	Feedback from patients and colleagues indicates that my communication with patients is effective and respectful. I think this is one of my strengths.	
Relates appropriately and communicates effectively with other members of the health care team	Demonstrates an ability to: • work positively as a team member in different clinical settings • show respect and establish professional relationships • exhibit personal and interpersonal professional behaviours • manage workplace differences and conflicts	I'm a good team member with generally effective communication. Sometimes have difficulty communicating when there are differences in opinion (eg unhappy with rostering) but am working on this, trying to address before getting worked up.	k
Accepts constructive feedback	Demonstrates an ability to: accept feedback from colleagues, allied health staff, patients and their relatives recognise limits of own expertise	I actively seek and am happy to receive feedback and use this to improve my practice.	t
Reviews and updates professional practice	Demonstrates an ability to: • practice risk management • participate in clinical governance and audits	Not currently involved in audits, but reflect on own practice and cases by keeping a reflective diary.	k
